U.S. DISTRICT COURT
DISTRICT OF MASS.

_____ Motion to proceed without prepayment of _____
filing fee (off Record Special Request)

The plaintiff can no longer claim indigency only not recovered from it yet enough to have the requested filing fee, at this point. It could be another 6 or 8 weeks before it is available and she shouldn't wait any longer to file, this is important and needs to be done now to prevent further harm. Therefore I must pay for her and I can claim being indigent.

I'm asking the court to take my check and Hold it, proceed without cashing the check and if the defendants are found to be wrong as I believe they will, take the payment from them as they are not struggling barely holding on.

If I am wrong with what I believe regarding the law and credit card debt you have my check and can cash it. to not know how long or to go even a short time without the money for the filing fee is extremely difficult and if I can avoid going without it I'd very much appreciate that. Please don't hold up the Motion for unfunction because of the fee. This is to important and been held off to long already for Lack of Knowledge, Money or questioning the laws, the case and myself.
